

## HEALTH AND SAFETY POLICIES COVID-19

Parents or children showing signs of influenza, fever, cough, runny nose, sore throat, diarrhea or vomiting MUST NOT attend the preschool. This will be strictly enforced.

If a child develops symptoms mentioned above during the day, parents will be contacted for immediate pickup. The child will be made comfortable in a safe area while they wait for parents.

If staff develop symptoms during the day all parents will be called to pickup their children.

Children and staff will wash their hands immediately upon arrival and throughout the day as necessary. Hand sanitizer will be available at the door.

Staff will be requesting updates as to the childrens health upon arrival.

A maximum of 3 parents will be allowed in the preschool during pickup and drop off. Please wait outside the door until a space is available and maintain social distancing.

Staff will sign children in and out to avoid multiple people using the same pens.

All toys and equipment that cannot be easily cleaned have been removed from the centre.

Do not bring any toys from home.

Surfaces and toys will be cleaned and disinfected throughout the day.

Adequate spacing between children during play, snack, circle time and group activities will be encouraged.

High touch areas, furniture and tables will be cleaned and sanitized after each class.
